

**University/College Library
Broward Community College, Central Campus**

Expanded Academic ASAP

Expanded Academic ASAP (ASAP) is a database that indexes popular magazines and scholarly journals. It is a powerful index that allows one to search for full-text articles by subject and keyword. Topics range from arts and the humanities to social sciences, science, and technology.

Access to Expanded Academic ASAP

1. Go to the University/College Library Web page at <http://ucl.broward.edu/>
2. From this page, go to Finding Articles menu.
3. Select Express Login to Databases.
4. Enter your Borrower ID. Type in your 14-digit library barcode number on the front of your ID card.
5. Enter Your PIN number (last four numbers of your social security number). You may change your PIN to any four numbers you choose.
6. Click on [Log on] button.
7. From the left column, select Expanded Academic.
8. Click on [Connect to Database] button.

to the following journal(s)

History

Searching Strategies

- The database supports the following types of searches: Subject Guide (default), Relevance Search, Keyword Search and Advanced Search.
- Articles can be limited to: *Full-text, Refereed Publications, date and journals.*

Subject Guide Searching (Default)

Subject Guide search uses controlled vocabulary to find only articles that match your exact topic.

1. Click in the search box and type the word **aids**.
2. Under the "Limit the current search" section, select the "to articles with text" box.
3. Press Enter or click the Search button to start the search.
4. The subject guide list will be displayed on the screen. Every subject heading with the word **aids** is listed in alphabetical order where **aids** is the first word. Notice the "See" and "See also" references.
6. From the subject guide list, you can click to view articles or you can narrow periodical articles by subdivision.

- Click on the word "Narrow" to view a list of subjects from which to choose.
- View the articles listed under the subdivision **africa**. This will take you to your Citation List.

AIDS
 See AIDS (Disease)
AIDS (Acquired Immune Deficiency Syndrome)
 See AIDS (Disease)
AIDS (Disease)
 View 7751 articles or related subjects
 Narrow by subdivision

Keyword Search

Click on the link **Keyword Search** in the navigation bar. This will allow you to search your topic by keywords. A Keyword Search looks for the word or words entered. Results are listed from most recent to oldest publication date. Keyword search comes in most handy when trying to answer reference questions. Whereas with subject search, you may only enter one topic at a time, you can search on several topics in keyword search.

Keyword search

Click in the entry box and enter search term(s)
 aids and prevention Search

Search for words in title, citation, abstract in entire article content
 Type words to search for. You can use AND, OR, NOT. Results are sorted by date.

Limit the current search (optional)
 to articles with text
 to refereed publications

Click in the search box and type the words **aids and prevention**. Choose to search in **search in title, citation, abstract**. Click on **Search** button to start the search.

Remember, keyword search only searches for your search terms entered; unlike subject search where you can find see and see also references to refer you to the right topic.

Viewing the Results

- The articles on a citation list are sorted in reverse chronological order.
- Your citation list always shows your search strategy at the top of the page. There are twenty citations per page; you have next page, previous page, first page and last page icons at the top and bottom of the citation list page.
- The citations give a brief description of the article. From the citation you can tell what information the database contains for the article: **text**– full text of the article; **text with graphics**– full text of the articles with images from the article; **PDF**– a facsimile of paper article. This information is shown as a link directly beneath the citation.
- The title of the article is a hyperlink; you may click it or the text, text with graphics, and PDF link to view the article.
- Printing and e-mailing options appear at the bottom of the article. You may also be able to download the article in PDF format and see it in it's original format (using Adobe Acrobat Reader.)

Subject: aids (disease)
