**PsychFIRST**

PsychFIRST covers psychology and related fields and indexes journal articles, technical reports, monographic series, dissertations, and other materials. Indexed materials are selected from more than 1300 journals published in 50 countries and 28 languages. Full-text access to material is not available, but most records have an abstract. The database covers the last three years.

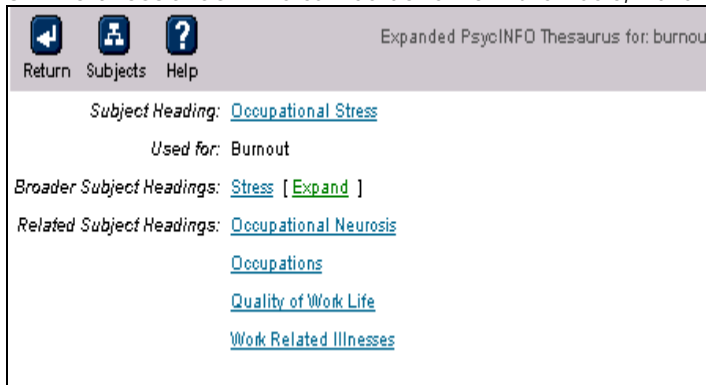

**Accessing PsychFIRST**

PsychFIRST is available through the FirstSearch set of databases. To access PsychFIRST:

- Go to the home page at <http://ucl.broward.cc.fl.us>
- Select *Journals/Magazines*
- Select FirstSearch (LINCCWeb); enter 14-digit card number OR  
Select FirstSearch (WebLUI5); enter 14-digit FAU card number
- Scroll down to FirstSearch and connect
- Select the PsychFIRST database

**Using the PsychFIRST Thesaurus**

PsychFIRST uses a controlled vocabulary. To make your searches as specific as possible, use the **online thesaurus**. This can be done from the Basic, Advanced and Expert search screens.

To use the Thesaurus, enter your search term and click "Find". The Thesaurus will display the current descriptor(s) that should be used for your search. Broader and related descriptors will also be displayed if you click on "Expand".

**Basic Search Screen**

When you open PsychFIRST the basic search screen is displayed:

This is the basic search screen, which permits you to search by keyword, author, or title; limit to materials available in the library and/or full-text; and rank by date or relevance.

For help in using the database, click on the **Help (?)** button at the top of the page, or ask a librarian at the Reference Desk.

PsychFIRST is one of the few databases that indexes books, chapters in books, dissertations, reports and secondary publications in addition to journal articles. You can limit your search to the following types of documents

Chapter  
 No Limit  
 Authored Book  
 Book  
**Chapter**  
 Dissertation Abstract  
 Edited Book  
 Journal Article  
 Report  
 Secondary Publication

The following is a display of the results for the same search, limited to chapters in books. In this case, you will need to search the LINCC catalog for the author of the book. For example, in document # 1, you would perform an author search for Thompson, Elizabeth, **not** Mederer, Helen; in document # 2, you would perform an author search for Violanti, John M.; in document #3, you would search for Miller, David.
