

**University/ College Library
Broward Community College, Central Campus**

Colleges: Information Sources

College Catalogs: Issued by each college listing courses, prices and specifics. The library maintains the current undergraduate catalogs, when available from all accredited Florida Universities and Community Colleges on reserve at the Circulation / Reserve Desk.

College Catalog Collection on Microfiche: This annually updated collection includes the full text of each catalog from every institution of higher education accredited by the Department of Education. Currently there are approximately 3600 catalogs from 2900 institutions reproduced on microfiche. A guide indexes these schools by state and name. These are located in the Microfiche room (#160). Copies are available at 10 cents.

Internet College Catalogs: Almost every college and university throughout the world has an internet site. The amount of information on each varies, but generally includes the text of the catalog as well as additional information. The University / College Library Homepage has an excellent set of links to help you find them at <http://ucl.broward.edu/guides/colleges.htm> and financial aid links are listed at <http://ucl.broward.edu/guides/finaid.htm>

Index of Colleges by the Degrees Offered:
